

DISCOVER THE CALIFORNIA DELTA

Discover the Delta

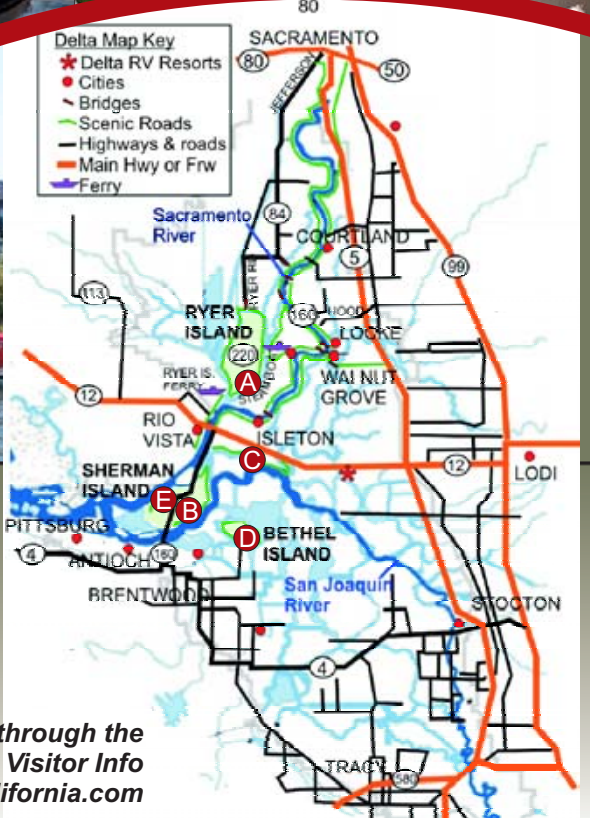

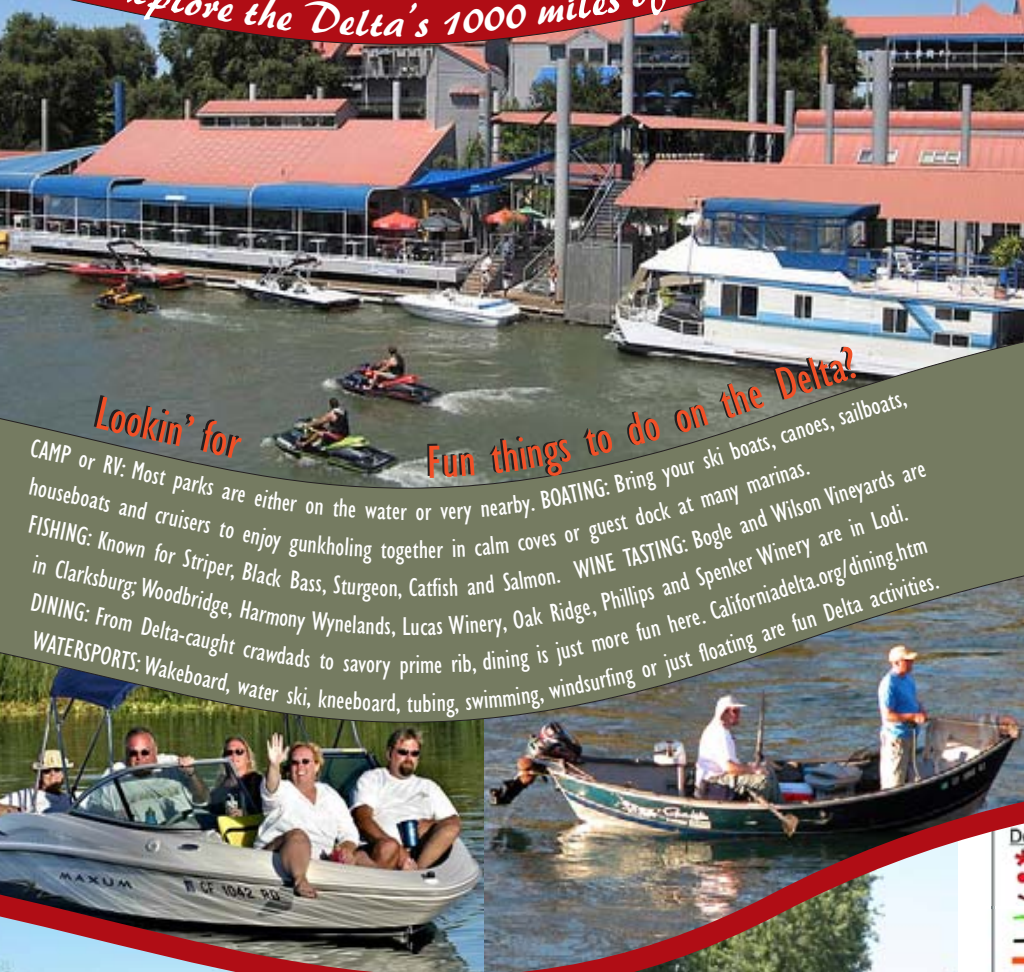

www.DiscoverTheDelta.com

Explore the Delta's 1000 miles of navigable waterways!

Composed of 57 leveed island tracts and 700 miles of sloughs and winding channels, the Delta is a unique blend of quaint river towns, busy ship ports, farmlands, industries, highways, historical sites, and marinas. Getting to the towns is part of the fun: you may end up crossing many bridges, drive picturesque levee roads, or experience something unusual for California . . . ferrys! The Delta bridges you'll cross are engineering marvels, built to connect the 52 main islands of the area. But, don't be surprised when you are delayed a few minutes when a bridge has to swing open or raise its middle to allow a tall ship or cargo ship to get on by. Relax, slow down, . . . you're on Delta time!
